

US Treasury bond buyback:

Periya news-ah

Retail investors-oda

thavaraana kanakku

US Treasury bond buyback-ah 'tripled' pannitanga nu sonna udane, market-la heavy liquidity varum nu retail investors namburanga. Idhu oru **liquidity illusion**; market-la irukura supply overhang-ah idhu solve pannadhu.

The math *behind the* \$6 billion reality

Headline-la 'tripled' nu perusa therinjalum, actual amount just **\$6 billion** dhaan. US government issue panra massive debt-oda compare panna, indha amount **negligible**; idhu market-la endha major impact-um create pannadhu.

Why it *compounds against* retail

Retail investors 'QE is back' nu nambi buy panrapo, smart money institutions adha exit opportunity-ah use panraanga. Indha **token liquidity** structural relief tharaadhu, so retail portfolio-ku idhu oru **hidden risk**.

Institutional reality:

They know

the truth

Big banks and institutions-ku theriyum indha **\$6 billion**-la duration risk-ah control panna mudiyadhu nu. Avanga headlines-ah paathu trade panna maataanga, **macro-economic supply-demand** data-va dhaan focus pannuvaanga.

The golden *protective trading* rule

Never trade on headline percentage increases!
Always measure the **absolute intervention size**
against total sovereign debt issuance. Percentage-
ah paathu bayapadaadheenga, **actual value**-ah
paathu decision edunga.

Pre-trade action checklist

1. Headline-oda absolute value-va check pannunga. 2. Market-oda total debt issuance-oda compare pannunga. 3. **FOMO**-la trade pannaama, **data-driven** confirmation-kaaga wait pannunga.
